EXPERIENCE

1. Software Engineer Intern | Technetic Solution

Aug 2024 – Feb 2025

- Learned to build real-world applications using ASP.NET and understood application architecture
- Assisted in working with MS SQL to design and manage databases
- Practiced developing responsive UIs with Bootstrap and used Git for version control

2. Software Engineer | Technetic Solution

Feb 2025 – Aug 2025

- Contributed in real world applications using ASP.NET and applied app architecture concepts
- Designed and managed databases using MS SQL in production level tasks
- Developed responsive UIs with Bootstrap and actively used Git for version control

PROJECTS

1. Nexus

(Self-Initiated) Oct 2025 – Present

- Architected a MERN-stack SaaS platform to streamline visual data organization.
- Engineered an interactive infinite canvas with React, MongoDB, Tailwind, Konva JS and Radix UI.
- Built a stateless Express backend for low-latency visual data retrieval.
- Implemented Google OAuth security and precision tools for seamless ideation.

2. Chromaic (E-commerce + Admin Panel)

(Self-Initiated) Jan 2025 – Mar 2025

- Built a MERN-stack fashion app with an admin software to manage, update, or delete products.
- Designed a clean shopping UI with React, MongoDB, Tailwind and Bootstrap.
- Created a fast Node and Express backend for quick product searches and filters.
- Added secure JWT user logins and interactive color options for easy shopping.

3. TalkSphere

(College Major Project) Feb 2025 – Apr 2025

- Built a Java-React messaging app with a real-time engine to send, receive, or store chats.
- Designed a clean chatting UI with React, MySQL, Tailwind and WebSockets.
- Created a fast Spring Boot backend for quick data persistence and live updates.
- Added secure BCrypt user logins and interactive friend requests for seamless networking.

2. CartNova (E-commerce + Admin Panel)

(Self-Initiated) Jan 2025 – Mar 2025

- Built a Java-React furniture store with an admin panel to manage products and categories.
- Designed a clean shopping UI with React, MySQL, Tailwind and Bootstrap.
- Created a fast Java and Spring Boot backend for quick product searches and filters.
- Added secure role-based user logins and interactive product modals for easy shopping.

EDUCATION

Techno Main Salt Lake | 2022-2025

- Bachelor of Computer Applications

SKILLS

- Full Stack Development
- Java
- React JS
- Asp.NET
- Python
- SQL
- Spring Boot

INTERESTS

- Software Development
- Full Stack Development
- UI/UX
- Saas
